## Performance Summary

During the first quarter, Blue Point's model portfolio, applied to separately managed accounts, returned -0.28% net-of-fees. The Total Return of the S&P 500, which includes dividends, was 6.18%. Blue Point's active management underperformed the benchmark by 6.46%. The primary source of the underperformance was the strong rotation from growth companies to cyclical companies.

Graph footnote: Total Return (TR), includes the reinvestment of dividends.

**Disclosures:** Performance of the separate accounts can differ substantially from the performance of Blue Point's model portfolio due to timing of entry, whether account is taxable or non-taxable, and the timing of withdrawals. Returns include accrued income since 9/30/14. Past performance does not guarantee future results. The standard investment adviser fee schedule is 1.0% on the first \$3 million, 0.85% on the next \$7 million, 0.75% thereafter. There is no stated account minimum, but the relationship needs to be mutually beneficial. The investment adviser fees are negotiable and may be waived. Blue Point Investment Management, LLC, is a Maryland registered investment adviser. To receive a copy of Blue Point's ADV Part 2, call 443-600-8050.

## Market Outlook

- **Higher Taxes** – Dramatic changes have been proposed for U.S. individual, corporate, and estate taxes. Tax and estate planning have elevated importance for the balance of 2021.
- **Unusual Growth** – U.S. economic growth is accelerating as biotech innovation allows us to return to our daily lives. Full approval of these highly effective COVID vaccines will accelerated global growth.
- **Inflation** – The list of items causing inflation is disturbingly long. Printed money, stimulus

checks, supply chain disruptions, labor shortages, semiconductor shortages, container shortages, and planning uncertainties. When combined with the Biden Administration's endless spending requests, a dangerous inflationary surge has already begun.

- **Productivity Gains** – COVID restrictions accelerated technology adoption throughout the economy. Technology-enabled productivity gains are expected to contribute to unusual levels of economic growth.

## A Global Perspective

Blue Point Investment Management offers equity-oriented growth with a global perspective. The investment discipline seeks Growth at a Reasonable Price. Each client account is managed separately.

The Growth At a Reasonable Price (GARP) investment strategy is a blend of active growth and value investing. As a rule, value investors focus on the price of the security, the numerator of the P/E ratio, while growth investors focus on earnings offered by the security, the denominator of the P/E ratio. GARP represents a blended approach and is often referred to as a market-oriented investment strategy.

Blue Point identifies sustainable, long-term trends through macro-economic research. From there, Blue Point uses fundamental research to identify and invest in companies that stand to benefit from favorable trends. Investments are geared towards long-term value creation while preserving capital.

Blue Point seeks equity-oriented growth while actively managing the downside risk. Under normal circumstances, Blue Point invests at least 60% of its net assets in domestic U.S. securities. This global approach offers significant investment opportunities here and abroad. In times of market crisis,

adjustments to portfolio holdings will be made that best serve the preservation of capital while seizing investment opportunities. Cash is used as an asset class in portfolio construction.

Each separately managed account stays in the client's name providing complete transparency. Blue Point receives no commission or compensation that would create a conflict of interest. To further ensure the alignment of interests, Blue Point's portfolio manager invests in the same Blue Point model portfolio as clients.

## THE MANAGER'S CORNER

### PORTFOLIO MANAGER:

Niall H. O'Malley (pictured) is the founder and Managing Director of Blue Point Investment Management, which manages accounts on a separate account basis. Niall has an MBA from George Washington University in Finance and Investments with minors in Business Law and Taxation. All of these activities build on strong professional experience working for buy-side firms, consulting, and over seven years with a top-ten U.S. commercial bank. Prior to starting Blue Point, Niall was a Vice President of Credit & Risk Management at SunTrust Bank.

He passed Level II of the Chartered Financial Analyst examination in 2005, and holds the Series 65 License from FINRA.

Niall regularly speaks to CFA Society, university and investment groups. He served on the Board and the Program Committee of the CFA Society Baltimore for 13 years, and now serves on the Society's Advisory Board. Niall served as President of the CFA Society Baltimore from 2009-2010, and founded the Baltimore Business Review. He served as Co-Editor of the Baltimore Business Review for eight years, while being a contributor. Niall has

taught Investments and Equity Security Analysis as an Adjunct Professor at Towson University, College of Business and Economics.
